LIMITED TREATMENT SYSTEM – Provide ONLY job duties that you routinely perform while working in a drinking water LIMITED TREATMENT system. DO NOT check off or describe job duties for work activities that you have performed only once or twice or that you perform infrequently. DO NOT check off or describe work activities associated with positions or duties you have performed only in a COMPLETE TREATMENT, DISTRIBUTION SYSTEM or WASTEWATER TREATMENT system. Beginning with your current job (job position #1), work backwards listing previous LIMITED TREATMENT system positions which you believe qualify you for operation experience in a drinking water LIMITED TREATMENT system. If you held various positions with the same employer that had different duties or different levels of responsibility, list them as separate job positions. Examples of this would be promotions from general worker to foreman or from foreman to supervisor. For each POSITION, fully describe your job duties in the space provided for job positions 1 and/or 2 and/or 3. Attach additional sheets if you need more space or if you have experience in more than 3 job positions. Label them as job position 4, 5, etc. There are four drinking water LIMITED TREATMENT system operation job categories. Each job category is divided into specific job duties. Beginning on Page 3, place an “X” next to the activities that you ROUTINELY perform. Applicants performing a majority of activities within a category are credited with a full job category. Applicants ROUTINELY performing at least one, but less than a majority of activities within a category are credited with half a category. TWO OR MORE half categories equal ONE full category.

SUPERVISORS: If you DO NOT ROUTINELY perform the job duties listed, and are not a FIRST LINE SUPERVISOR directly overseeing operations in the LIMITED TREATMENT system, do not check off any boxes. Instead, fully describe your job duties in the space provided AND attach copies of both your position description and your water utility or company organizational chart.
